Question Two: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

Everyone knows that the Internet connects people, but now it does more than that – it connects objects, too. These days, computers often communicate with each other; for example, your TV automatically downloads your favourite TV show, or your ‘sat nav’ system tells you where you are. This is known as the ‘Internet of Things’, and there’s a lot more to come.

In just a few years’ time, experts say that billions of machines will be connected to each other and to the Internet. As a consequence, computers will increasingly run our lives for us. For example, your fridge will know when you need more milk and add it to your online shopping list; your windows will close if it is likely to rain; your watch will record your heart rate and email your doctor; and your sofa will tell you when you need to stand up and get some exercise!

Many people are excited about the ‘Internet of Things’. For them, a dream is coming true. They say that our lives will be easier and more comfortable. However, others are not so sure. They want to keep control of their own lives and their own things. In addition, they wonder what would happen if criminals managed to access their passwords and security settings. The dream could easily become a nightmare!

1. The text states certain ways of how computers will easily run our lives. Write down three of these ways. **(9 points)**
2. Some people are uncertain about the ‘Internet of Things’ for two reasons. Write down these two reasons. **(6 points)**
3. Find a word in the text which has the same meaning as ‘speak to’. **(3 points)**
4. There are two elements that are connected with each other through the Internet. Write them down. **(6 points)**
5. The ‘Internet of Things’ is expected to affect transport positively. Suggest three advantages of the ‘Internet of Things’ on transport. **(6 points)**

Question Three: (30 points)

A) Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

Two summers ago, I spent five months studying Arabic at the German-Jordanian University near Madaba. I was amazed by the number of international students there, who were not only from Germany, but from all over the world. Most of them had studied Arabic to a high level. The Arabic class, in Modern Standard Arabic, was challenging, especially the grammar.

What impressed me most about students in Jordan was their behaviour and their attitude to studying. All the students who I met appreciated the importance of their university education. They also showed extremely positive values.

As someone who enjoys delicious food, beautiful places and friendly, hospitable people, studying in Jordan was one of the best decisions I have made in my life. I made many new friends. I also improved my Arabic speaking, writing and reading skills. My dream is to be fluent in Arabic one day – and as I intend to return to Jordan as often as I can, I know I'm going to make this dream a reality.

1. There are three reasons that made Anita decide to study in Jordan. Write them down. (6 points)
2. Different aspects impressed Anita about her fellow students at the university. Write down two of these aspects. (6 points)
3. Write down the sentence which states Anita's dream and her insistence to make this dream come true. (3 points)
4. What does the underlined word there refers to? (3 points)
5. Students who study abroad and live with foreign families might have positive impacts on their academic performance. Think of this statement and, in two sentences, write down your point of view. (6 points)

B) Literature spot (6 points)

Read the following lines from *A Green Cornfield* carefully, and then answer the questions that follow:

*A stage below, in gay accord,
White butterflies danced on the wing,
And still the singing skylark soared,
And silent sank and soared to sing.*

1. The poet uses many examples of alliteration. Find two examples. (4 points)
2. Find a word in the stanza above which means "in agreement". (2 points)

Question Two: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

The Arab world has many famous chemists in its history, but the person who is known as the founder of chemistry is probably Jabir ibn Hayyan. He is most well known for the beginning of the production of sulphuric acid. He also built a set of scales which changed the way in which chemists weighed items in a laboratory: his scales could weigh items over 6,000 times smaller than a kilogram.

Ali ibn Nafi' is also known as 'Ziryab' (or 'Blackbird', because of his beautiful voice). He was a gifted pupil of a famous musician from Baghdad, and it was his talent for music that led him to Cordoba in the ninth century CE. He was the guest of the Umayyad ruler there. He is the person who established the first music school in the world in Cordoba, Al-Andalus, teaching musical harmony and composition. He revolutionised musical theory, and is also the person who introduced the oud to Europe.

Al-Kindi was a physician, philosopher, mathematician, chemist, musician and astronomer – a true polymath. He made ground-breaking discoveries in many of these fields, but it is probably his work in arithmetic and geometry that has made him most famous.

1. The text states some important achievements that Ali ibn Nafi' made in music. Write down two of these achievements. (6 points)
2. There are two subjects that have made Al-Kindi a famous person. Write them down. (4 points)
3. What does the underlined pronoun "He" refer to? (4 points)

5. Why is Ali ibn Nafi' also known as 'Ziryab'? (4 points)
6. Write down the sentence which shows that Al-Kindi was a polymath. (6 points)

Question Three: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

My name is Fatima Musa and I have worked as an interpreter for five years. At school I was very good at English. Therefore, I decided on a career as an interpreter.

My job now involves going to important conferences and seminars around the world. When a person speaks in English at a conference, I listen to what they say through headphones. I then translate into Arabic while the speaker is talking. I give the translation through headphones to other people at the meeting. This means that anyone in the room who speaks Arabic can understand what people are saying.

Is it an easy job? Not at all. English is not the same in all English-speaking countries. As well as knowing regional English, you also need to know a lot of specialist language. Some of the words that are used to talk about business, science or law, for example, make it almost a different language! If you get an interview for a job, you will need to show that you have good listening skills and a clear speaking voice. You will also need to show that you can think quickly and that you are able to concentrate for long periods of time.

You will probably need to travel a lot, but that is not a problem as long as you enjoy visiting other countries. It is a very responsible job. I am aware that if I translate things badly, it could affect an important law or trade agreement between countries. However, you get a huge feeling of satisfaction when you know that people understand everything that you translate.

1. Fatima Musa does two things while translating at a conference. Write them down. (6 points)
2. Why does Fatima Musa decide to be an interpreter? (4 points)
3. There are two things an interpreter needs to know. Write them down. (4 points)
4. What is the effect of bad translation? (6 points)
5. What does Fatima's job involve? (6 points)
6. Find a word in the above text which means "a class on a particular subject, usually given as a form of training". (4 points)

Question Four: (20 points)

Question Two: (20 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text. (20 points)

Health conditions in Jordan are among the best in the Middle East. This is largely due to the country's commitment to making healthcare for all a top priority. Advances in education, economic conditions, sanitation, clean water, diet and housing have made our community healthier.

As a result of careful planning, the number of healthcare services has been increasing rapidly over the past years. More than 800 different kinds of healthcare centres have been built, as well as 188 dental clinics. In 2014 CE, 98 percent of Jordanian children were fully immunised, thanks to immunisation teams that had been working towards this goal for several years.

Although there were remote areas of the country where people had been without consistent access to electricity and safe water, almost 99 percent of the country's population now has access.

Although the country has been focusing mainly on improving its primary healthcare facilities, it has not neglected its advanced medical facilities. The reputation of Jordanian doctors has spread in the region, and now many more patients come to Jordan for open heart surgery. In Jordan, the open heart surgery programme started in 1970 CE in Amman.

The life expectancy figures show that Jordan's healthcare system is successful. In 1965 CE, the average Jordanian's life expectancy was age 50. In 2017 CE, this average life expectancy had risen to 74.6.

1. Advances in several fields have made Jordan's community healthier. Write down two of these fields. (4 points)
2. Why are health conditions in Jordan considered among the best in the Middle East? (3 points)
3. Write down the sentence which shows the number of healthcare centres and dental clinics that has been built during the past years. (3 points)
4. What does the underlined word "it" refer to? (3 points)
5. Find a word in the text which means "the process by which an individual's immune system becomes protected against an illness". (3 points)

Question Two: (20 points)

A) Read the following report carefully, and then in your ANSWER BOOKLET answer all the questions that follow. You answers should be based on the report.

(18 points)

In this report, we will look at the countries that Jordan trades with and what goods it exports and imports.

First, let's look at exports. Jordan is rich in potash and phosphate, and the extraction industry for these minerals is one of the largest in the world. Not surprisingly, two of Jordan's largest exports are chemicals and fertilizers. Pharmaceuticals and other industries represent 30% of Jordan's Gross Domestic Product (GDP), and 75% of Jordan's pharmaceuticals are exported. However, the majority (65%) of the economy is dominated by services, mostly travel and tourism. Most of Jordan's exports go to Iraq, the USA, India and Saudi Arabia.

Now let's look at imports. Unlike some other countries in the Middle East, Jordan does not have large oil or gas reserves. For that reason, Jordan has to import oil and gas for its energy needs. Its other main imports are cars, medicines and wheat. In 2013 CE, 23.6% of Jordan's imports were from Saudi Arabia. This was followed by the EU, with 17.6% of its imports. Other imports have come from China and the United States.

1. The report mentions four countries that most of Jordan's goods are exported to. Write down two of these countries. (4 points)
2. Write down the sentence which indicates the two particular services that control the majority of Jordan's economy. (3 points)
3. Jordan imports different goods from different countries. Write down two of these goods. (2 points)
4. Find a word in the text which means "companies which produce drugs and medicine". (3 points)
5. What does the underlined pronoun (it) refer to? (2 points)
6. Trade plays a vital role in improving and supporting the economy of a country. Think of this statement and in two sentences write down your point of view. (4 points)

Read the following lines from "A Green Cornfield" carefully, and then answer the question that follow:

*The cornfield stretched a tender green
To right and left beside my walks;
I knew he had a nest unseen
Somewhere among the million stalks.*

- What does the bird do in the nest?
